

- Once you have completed your isolation or quarantine period you are able to receive your Covid vaccine or booster. There is no additional waiting period.
- The Pfizer vaccine is the only vaccine that is approved for pediatric use from ages 5 and up.
- All patients ages 12 and older are eligible to receive a booster vaccine as long as it has been 5 months since your second vaccine for Pfizer, 6 months for Moderna, and 2 months for Johnson & Johnson.
- All of the providers at Hunterdon Pediatrics strongly recommend anyone who is eligible for a vaccine or booster get one.
- To schedule an appointment for a Covid vaccine or booster through hunterdon healthcare please go to [Hunterdon Healthcare Vaccine Clinic](#)
