

- If you have symptoms of Covid-19 and tested negative on a home antigen test we recommend you confirm you are negative with a PCR test.
- If you have symptoms of Covid-19 and tested negative on a PCR test and did not have an exposure you may return to school/work as long as you are fever free for over 24 hours without any Tylenol or Ibuprofen and you have improved symptoms.
- If you have symptoms of Covid-19 and tested negative on a PCR and had an exposure, you need to complete your 10 day quarantine.
